

## **Eye Com 6000** **(Dual Lens & Tab Carrier** **Standard)**

Designed to view 35mm aperture cards, the Eye Com 6000 features a 20"H x 13"W screen for a full field blowback of engineering and architectural drawings. Excellent light output provides for sharper, brighter images and even illumination.

This dual lens reader comes complete with two lenses. The first lens (12X) allows viewing of A, B, C, D and E size drawings. The second lens is a magnifier which can enlarge any portion of the image on the screen. The 6000 also features an energy-saving hi/lo light intensity switch and an optional rollfilm attachment for 16mm and 35mm rollfilm.
