

## Eye Com 9800

### Universal Fiche/Rollfilm Reader/Printer

The Eye Com 9800, featuring programmable automatic image rotation with prism lenses, is designed to save you time and money, without sacrificing quality. Print crisp, clear copies every time without having to manually rotate and adjust source or portrait images on the screen. Just a touch of the "Print" button instantly rotates the onscreen image to the proper orientation for printing. High value performance and a complete range of options usually found only on large console units are offered in this easy to use, compact desktop machine.

#### Key Features:

- High resolution 12" x 12" screen permits edge-to-edge viewing
- Ready to print in 20 seconds
- Large 250-sheet paper tray and a no-waste dry toner system reduces the need to stop and replenish supplies
- Interchangeable fiche carriers designed to snap on and off with ease
- Low operating costs of approximately 3 cents per copy
